

A Better Option:

Live-In Home Care is the better option!

We are NOT an assisted living facility. You don't need to sell your loved one's home. They keep their cherished home and all of the safety, security, and comfort it offers. We provide the caregiving and professional support.

We are an affordable and cost-effective provider of live-in home care services. We perform extreme vetting of all caregivers. Our caregivers have CNA, HHA, or PCA level training, at least 2+ years of experience, in-depth state and national background checks, personality tests, multiple interviews, and ongoing in-service training. All of our caregivers are FCP Live-In employees, covered by workers' comp, professional liability, unemployment, and are insured and bonded for even more peace of mind.

Our live-in caregivers provide 1-on-1 personal care, homemaking, companionship, and assistance for each client's unique needs. Our caregivers are there to help with your loved one's daily routine, like walking to the bathroom, medication reminders, and cooking a meal. Caregivers communicate with our office daily and call for help if an emergency occurs. If there's a change in your loved one's condition, we notify family members and other healthcare providers, and update the plan of care as needed.

Our Cost:

Paying For A Live-In Caregiver

No one likes to think about growing older or the possibility of needing long-term care. But according to the U.S. Department of Health and Human Services, there's a 70% chance that individuals currently turning 65 will need long-term care at some point in their lives.

FCP Live-In will work with you and your family to make Live-In Home Care the most affordable option. We also accept most Long Term Care Insurances.

We are an affordable, cost-effective alternative to assisted living care. Our rates are often less than an assisted living facility. Plus, having one-on-one interaction between the client and caregiver is mentally beneficial and socially engaging. This type of care makes it easier for a caregiver to catch the little things with your loved one that might be missed by an assisted living facility staff member or part-time home health aide.

Our Caregivers:

Many Say They Are Angels And Should Have Halos

We only hire the best caregivers who are Certified Nursing Assistants (CNAs), Home Health Aides (HHAs), or Personal Care Assistants (PCAs) with 2+ years of experience. We run in-depth state and national background checks on all applicants. We use personality profiles to evaluate applicants and conduct in-depth interviews. Applicants must pass our skills assessments and attend a full-day orientation to assess their capabilities and attitude. These are only a few of the essential steps we take to ensure quality care.

We believe in a holistic approach to senior care, with every caregiver selected to meet each client's unique physical, mental, and emotional needs. Our "Harmony Match" system begins with our care coordinator coming to the home for a thorough understanding of your loved one's physical, mental, and psychological needs, which includes their sleeping habits, favorite foods, TV shows, hobbies, interests, and beliefs.

The care coordinator and matched caregiver will travel to your loved one's home for personal introductions to ensure we have found the perfect match.

Our Care:

Commitment to Quality Caring

Our commitment to our clients, their families, and our caregivers doesn't end with the placement process. Once we've found the perfect match for your loved one, we will reach out to you, your loved one or family member at least once a week to ensure everything is going well and address any concerns.

You can also expect:

- A professional communication channel with all other medical providers, including home health agencies, nursing facilities, visiting nurses, and hospice providers
- Pop-in home visits from field supervisors to ensure quality standards are always being met
- A team that is always communicating with care staff, family and supervisors to ensure care plans are updated promptly to one's ever-changing needs
- A 24/7 professional support system
